

eMobility Innovation World Awards 2024 are back to reward innovation in sustainable mobility

The awards, organized by eMobility Expo World Congress, will recognize the projects that are leading the advancement of sustainable mobility around the world

From February 13-15, eMobility Expo will showcase the latest trends and technology solutions to transform the mobility sector

Madrid, November 20th, 2023 – [eMobility Expo World Congress](#), which will take place from 13 to 15 February 2024 in Valencia, Spain, will host a new edition of the eMobility Innovation World Awards. After receiving more than 120 nominations in its first edition, the sustainable mobility awards return to Valencia to credit those initiatives and projects that promote more electrified, connected, green, and safe mobility.

The eMobility Innovation World Awards 2024 will reward from solutions and technologies that are defining the new era of sustainable mobility, to experiences and research that provide innovative solutions to the challenges of energy efficiency, connectivity, safety, and adaptation of cities and infrastructures, among many others, that the world is currently experiencing in terms of mobility.

To this end, the awards will have six categories: the **Best Mobility Company Award**, which will recognize the company that is driving the transformation of the industry through the development of new technologies, the implementation of new mobility models or the promotion of sustainable alternatives. Initiatives that are having a significant impact in the field of mobility will be rewarded with the **Most Innovative Project for the Future of Mobility Award**, as well as mobility projects implemented in cities such as new transportation methods, MaaS alternatives or solutions to improve transit and mobility with the **Best Public Sustainable Mobility Solution Award**.

The awards will also recognize solutions or technologies that improve customer service or experience or develop more inclusive mobility with the **Best Mobility Solution for Customer Experience Award**. For its part, the **Best Project Oriented Towards Sustainable Mobility Award** will recognize professionals or organizations that have done relevant work in the field of circular economy and sustainable mobility, with policies or practices that promote efficiency or waste reduction. Finally, the **Best Use of Technology to Improve Mobility Award** will reward AI, IoT, 5G, Blockchain, Data, digital twins or virtual or augmented reality solutions applied to the field of mobility.

All companies, organizations and professionals with innovative projects that contribute to more sustainable mobility can [apply for the awards](#) until January 8, 2024. The winners will be announced at a gala dinner to be held in Valencia on February 14.

In the last edition, the eMobility Innovation World Awards honored initiatives such as Zeleros' hyperloop, Swedish company REH2's hydrogen refueling stations, IOKI's flexible and on-demand public transport management model, Liight's AI solution to reduce CO2 emissions in the mobility

sector, and MAPFRE's Cevismap program to reuse and recycle batteries from accident-prone electric vehicles.

About [eMobility Expo World Congress](#) (February 13th-15th, 2024 – Feria de Valencia): eMobility Expo World Congress is a professional event for the sustainable mobility industry. For three days eMobility Expo will bring together in Valencia the leading firms specializing in micromobility, the automotive industry, technology, manufacturers of electric batteries and charging systems, new fuel sources, products for automated and autonomous driving, components industry, logistics, aeronautics, rail and shipbuilding, as well as startups that are revolutionizing the sector. The eMobility World Congress will be held as part of the event, where more than 375 experts will share the keys to implementing new business models and present the most cutting-edge technological and sustainable trends in the field of mobility.
