

eMobility Expo – MOW 2026 Calls for Tech Startups Leading Mobility Innovation

More than 200 startups will participate in the eMobility Startup Forum to present their projects to investors and industry executives

The latest edition of eMobility Expo World Congress – MOW 2026 will take place on March 10 and 11 in Malaga, Spain

Madrid, December 9, 2025 – The innovation that will define the future of the mobility sector will once again take center stage in 2026 at the [eMobility Expo World Congress – MOW 2026](#), Europe's largest professional event for the sustainable, autonomous, electrified, and connected mobility industry. The event, which will be held on **March 10 and 11 in Malaga, Spain**, will host a new edition of the [eMobility Startup Forum](#), a competition between the most innovative startups that will present the most disruptive technology-based solutions and business models in the field of mobility.

The **eMobility Startup Forum** is open to national and international startups that present inspiring and disruptive new ideas, technologies, initiatives, sustainable solutions, management models, and especially success stories and projects that help the mobility sector meet the challenges of climate change and increase its competitiveness. In this regard, the forum will bring together more than 200 startups from around the world, of which a total of 40 will be selected to present their projects during the fair.

The solutions presented must stand out for their impact on the mobility sector and may incorporate technologies such as Artificial Intelligence, IoT, Big Data & Analytics, Mobile Applications, Software Platforms, Digital Twins, Cybersecurity, Edge Computing, Blockchain, etc. Proposals related to the use of new energies and batteries, new materials, and solutions for connected and autonomous vehicles will also be valued. All interested startups can [submit their applications](#) until **February 2, 2026**.

"It is essential that startups and established organizations work together to promote innovative technological solutions that enable a shift towards a more sustainable, autonomous, and connected mobility model. Through the eMobility Startup Forum, we seek to foster precisely these ties, opening doors to new business opportunities and contributing to the development of a smart and accessible mobility ecosystem for all," says Sandra Infante, director of eMobility Expo World Congress.

In this regard, the eMobility Startup Forum will provide the ideal space to create synergies that drive the transition towards the mobility of the future. Entrepreneurs and startups will have the opportunity to showcase their projects, while investors and large companies will be able to explore new horizons to expand the capabilities and usefulness of mobility products.

Andalusia, international hub for mobility with eMobility Expo – MOW 2026

The third edition of the eMobility Expo World Congress is moving to Malaga in partnership with MOW to continue promoting the mobility of the future. Over two days, the event will bring together all mobility stakeholders, with the participation of more than 6,000 professionals and

executives, to contribute to the transformation of the sector towards a smarter, more efficient, and environmentally friendly model. To this end, more than 200 exhibiting companies will present the most disruptive innovations in sustainable mobility, electrification, green hydrogen, connectivity, and new technologies.

About [eMobility Expo World Congress - MOW](#) (March 10-11, 2026 – FYCMA, Málaga): It is the professional event for the autonomous, electrified, sustainable, and connected mobility industry. Over two days, eMobility Expo – MOW 2026 will bring together in Malaga leading companies specializing in micromobility, the automotive industry, technology, manufacturers of electric batteries and charging systems, new fuel sources, products for automated and autonomous driving, the components industry, logistics, aeronautics, rail, and naval industries, as well as the startups that are revolutionizing the sector. The MOW congress will take place within the framework of the event, where more than 370 experts will share the keys to implementing new business models and present the latest technological and sustainable trends in the field of mobility.
